Navigation tips

A navigation icon appears in the telephone display to indicate that you can scroll to more options or information. Use the right and left navigation arrows to go to other screens when the paging icon displays on the title line or to move the cursor right or left when entering text.

Avaya Menu

You can use the Avaya Menu to adjust and customize options and settings for your telephone, access additional Web-based applications, get information about your phone and network settings, and log out. When you press the Home button, you see one of the following menus, depending on how your administrator has set up your system and on the applications available to you:

<table>
<thead>
<tr>
<th>Sample Menu 1</th>
<th>Sample Menu 2</th>
</tr>

</tbody>
</table>

Options & Settings or Phone Settings. If your menu is customized, it lets you change your call settings, personalize button labels, adjust brightness and contrast, select your ringing pattern, and more.

The Browser menu contains additional Web-based applications. (If no Web applications are available for your phone, the Browser menu is not shown.)

Network Information shows a summary of network-related parameters for your phone and provides diagnostic information. If your administrator has set up Web applications, this option appears under the Phone Settings menu instead.

VPN Settings option is available only if you are an authorized VPN user and if your desktop is part of a Virtual Private Network and if you have authorization to view or change associated settings. If you require information on how to set up VPN, see the VPN Setup Guide for 9600 Series IP Telephones Document Number 16–602968.

About Avaya one-X provides the release number of your telephone software.

Guest Login lets you log in to a phone to which you are not normally assigned, to access your own contacts and features.

Log Out lets you sign off the phone, to protect your settings or to allow another user to log in. Log out does not display unless your phone (and any associated button module) is in an idle state.

My Pictures lets you use pictures from a USB device as your telephone screensaver, but is only available on those deskphones with a USB interface.

Answering and making a call

Answering a call

Answer an incoming call in one of the following ways:

- If you are not on another call, lift the handset, or press Speaker, OK, or Answer to answer the call using the speakerphone, or press Headset to answer using the headset.
- If you are on another call and the telephone does not automatically display the incoming call, from the Phone screen scroll to the line with the incoming call and press Answer or OK. If you are on another call and the telephone does automatically display the incoming call, you can press Ans Hold to automatically put the first call on Hold when you answer the new call. Alternately, you can press Ans Drop to automatically drop the first call when you answer the new call.
- To quickly move to the top of your call appearance list to answer an incoming call on your primary line, from the Phone screen press the Phone button. You can then press the line for the incoming call or scroll to it.
- To automatically display the Phone screen whenever you receive an incoming call, set the Go to Phone Screen on Ringing option to Yes.

Making a call

1. Lift the handset, or press Speaker or Headset (if applicable) or a line button for an available line.
2. Dial the number you want to call.

Making a call using edit dialing

Using Edit dialing feature, you can edit the number before actually dialing by using the Bksp softkey. Using the Bksp softkey, you can edit the number before actually dialing it.

Putting a call on hold

1. Press Phone to view the main Phone screen, if necessary.
2. If you are not active on the line you want to put on hold, select that line.
3. Press Hold.

Note:

The phone might display a hold timer when you put a call on hold.

1. Press Resume or the line button of the held call to retrieve the call.

Transferring a call

1. From the Phone screen, if the call to be transferred is not already active (highlighted), select the line on which the call to be transferred appears.
2. Press Transfer.
3. Dial the telephone number, or call the person from the Contacts list, or call the person from the History list.
4. If unattended transfers have been administered, you can hang up now if you do not want to announce the call. Otherwise, press Complete or OK.

Using the conference feature

Setting up a conference call

1. From the Phone screen, select your active call.
2. Press Conf.
3. Dial the telephone number, or call the person from the Contacts list, or call the person from the History list.

9. Press Yes to confirm the selected language.

Using USB Flash Drives with your phone
You can use Universal Serial Bus (USB) flash drive if your deskphone has a USB interface and you have the permission of the administrator. When you log into your phone from a remote location, you can use the USB flash drive to add contacts to your Contacts list from an E-mail or other PC software program, and use the pictures from the device as screensaver on your phone.
Note:
USB Login: If you have automatic USB login capability, the only Contacts you can see are those on the USB device. When you use the USB login, the Log Out menu option is not available to you. The only way you can log your phone out is by removing the USB device.
